

It's HyperConnected. It's RoadReady™. It boasts Smart Security and innovative design. And above all, the Latitude D420 is mobile.

At just 1.36kg, this truly is a notebook that's ready to go anywhere. But don't presume that performance and usability are sacrificed.

As with all members of the Latitude D Family, this notebook refuses to compromise. And with an astonishing widescreen display, integrated Bluetooth® connection, and broadband and WiFi access, you'll discover that even the smallest, most mobile of machines constantly connects you to the rest of the world.

* Expected starting weight of 1.36kg for the D420 is with a 12.1" WXGA display, Intel GMA 950 graphics and 4-cell battery. Weights vary depending on configurations and manufacturing variability. 1. Up to 224MB of system memory may be allocated to support graphics, depending on system memory size and other factors. 2. For hard drives, GB means 1 billion bytes; total accessible capacity varies depending on operating environment. 3. Modem download speeds are limited to 56Kbps. Upload speeds are less (about 30Kbps). Speeds can vary by line condition and modem manufacturer. Analog phone line and service required. 4. The term Gigabit Ethernet does not denote an actual operating speed of 1Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required. 5. Where wireless access is available, additional access charges apply in some locations. 6. DVD-RW drives may have write-capable hardware that has been disabled via firmware modifications. 7. Discs burned with this drive may not be compatible with some existing drives and players; using DVD-R media provides maximum compatibility. 8. For writable storage devices, MB means 1 million bytes; total accessible capacity varies depending on operating environment.
